**ANGOCAJÚ**

# Who we are

Angocajú is the pioneer and only cashew nut processing factory in Angola. Our offer includes a delicious and authentic appetizer, increasingly appreciated for its exceptional nutritional qualities and health benefits.

Committed to quality, we also process peanuts (ginguba), cassava, banana bread and soon sweet potatoes, reindeer potatoes and Jucajú, all of exclusively Angolan production.

Our process follows the best global quality practices, in accordance with ISO 9001. Following an innovative process of growth and sustainability, we recently started processing jucajú leaves, which are equally energetic and nutritious.

Aiming for 100% Angolan production and self-sufficiency, we have land for the production of tropical products in the municipality of Nzeto, province of Zaire. Our products are available in several establishments across the country, and we are planning to start exports in 2024. In 2023, we were recognized as one of the four best entrepreneurship companies in Angola by Deloitte, in SIRIUS awards.

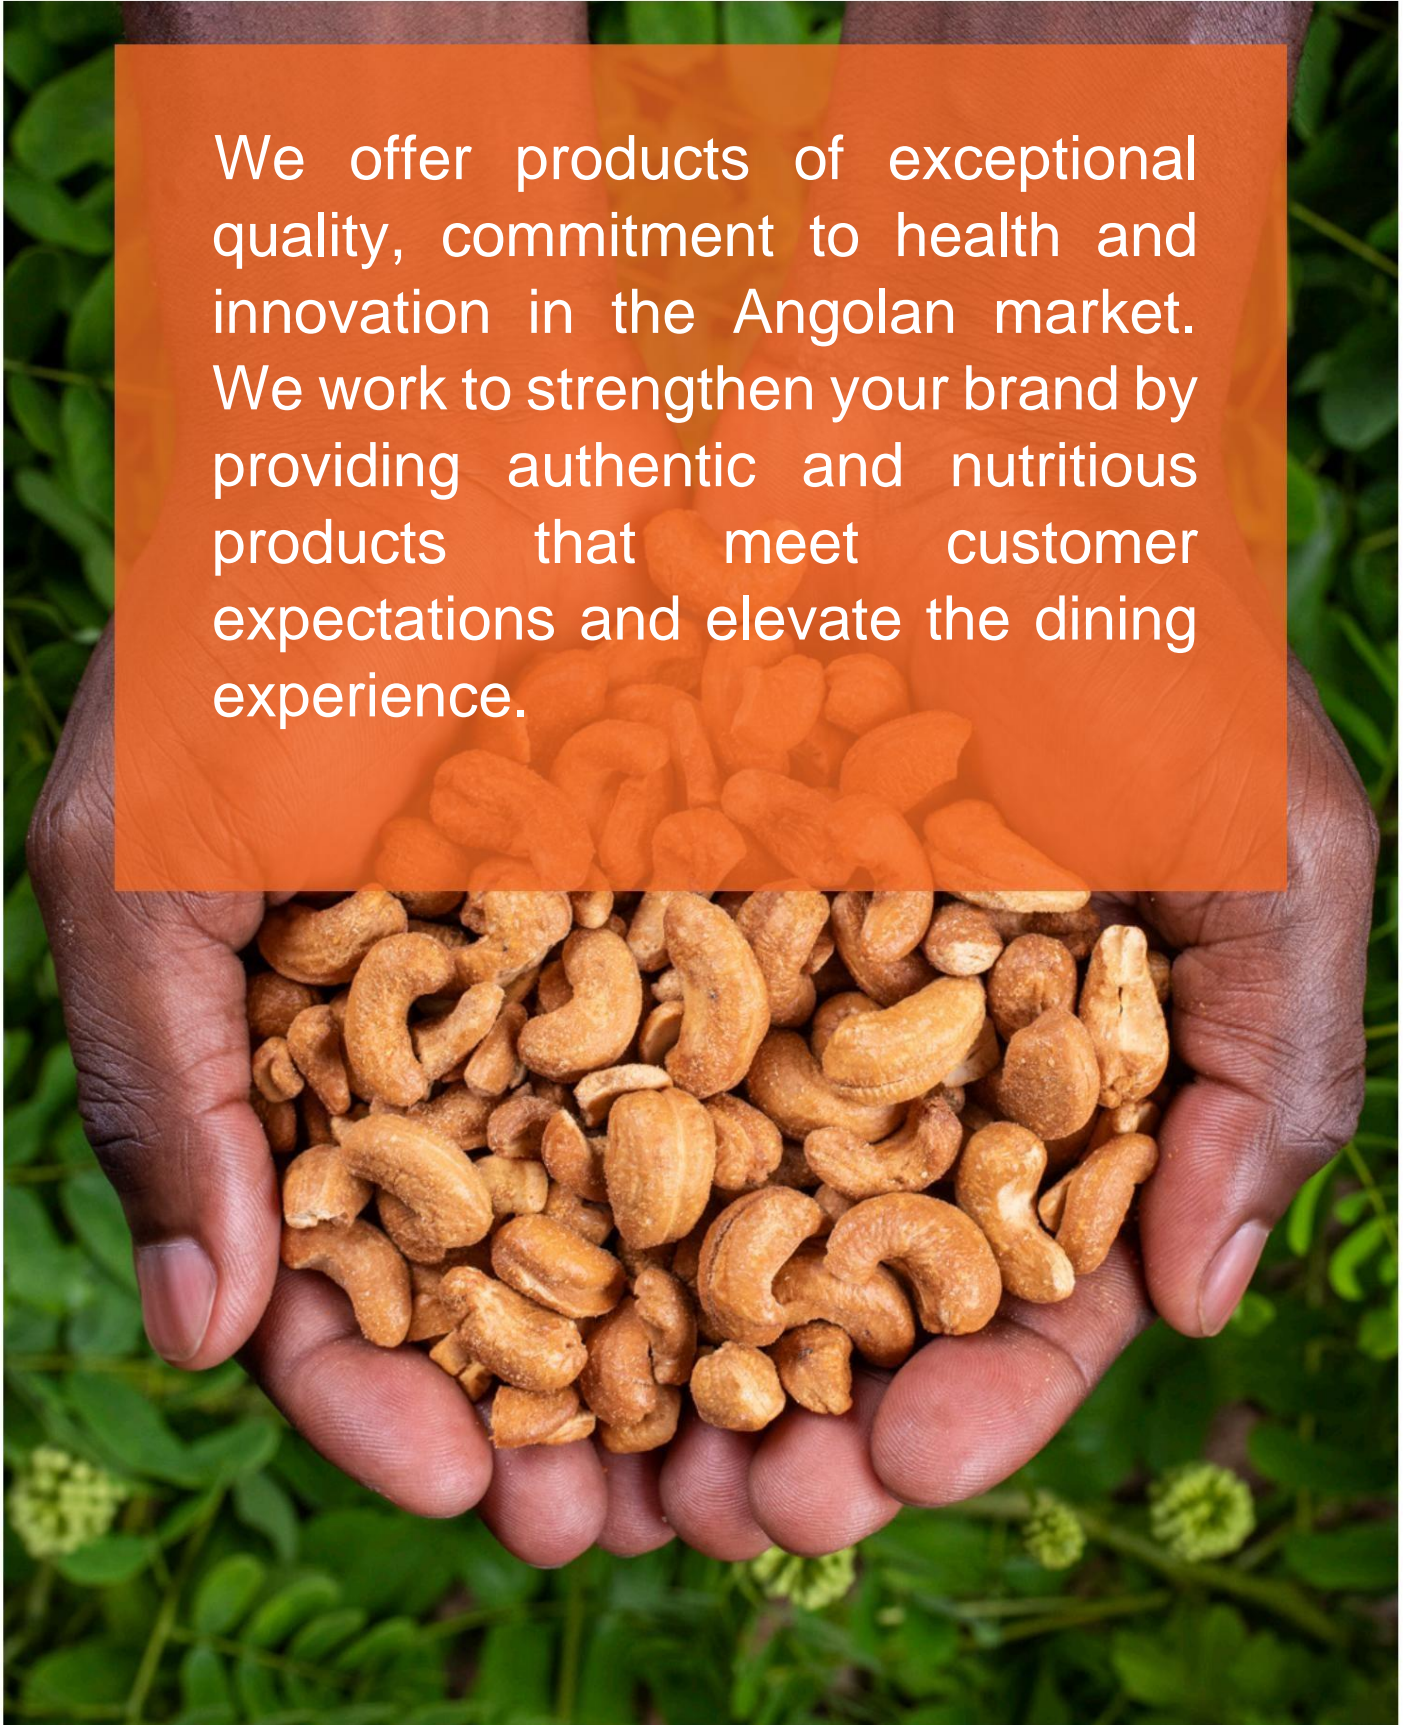

Our priority is to offer superior flavor and exceptional standards, feeding lives with exceptional nutrition and a non-negotiable commitment to your health.

## Why work with us

We offer products of exceptional quality, commitment to health and innovation in the Angolan market. We work to strengthen your brand by providing authentic and nutritious products that meet customer expectations and elevate the dining experience.
